Title The Sour patch Kids

Year 2022

I created a sour patch Kids close up. I created this by first sketching out the logo and zooming in on the part that I wanted, then I started tracing out the outlines colored sharpies then with normal black Sharpie. I started by first outlining with a green paint for the sour part, then the patch with an orange. The hardest part was probably finding the exact shade of yellow and green inside the letters. I created this artwork because sour patch kids were one of my favorite candies ever as a child. I really enjoyed making this. ♡

paper for this because I wanted to  
try something new other than drawing  
it out. I like this because it used  
overlapping shapes and texture. the  
most challenging part about this project  
was the cutting out and laying.

Title Old Memories

Year 2022

I created a slightly dirty vintage room representing memories collecting over time. I created this piece by using a watercolor base, with tempera paint details. I created this artwork because I thought it would be an interesting concept not making a pretty perfect artwork, but something more real. I used overlapping with different paints. I also tried to highlight my foreground and the back wall contrasting my artwork.

Title Toon Link

Art Medium(s) Pencil, Color Pencil

My drawing is a drawing of Toon Link, the main character of Legend of Zelda: Wind Waker. I drew him because his game was one of the first games I ever played, and got me into Zelda games and gaming overall. I wanted to pay homage to the game. The hardest part of Toon Link was definitely the skin tone, although the hands were a close second. I do, however, love the hair color and sleeve color. The most important part is the shading of the hair of darker skin, but without the precise shading and coloring of the tunic, the whole thing would fall apart. The game Wind Waker was/is really fun, and I highly recommend it, or any Zelda game, as one of your first games.

My attack is inevitable because I love sportsmen.  
 The most important part of the game is the horses because they  
 make the most interesting. I make the points because I  
 love sportsmen. I make myself very interesting, I feel  
 foolish. My opinion is that a woman is a woman, a  
 woman is a woman, a woman is a woman, a woman is a woman.

Title Emotion  
Year 2022

The title of my artwork is "Emotion".

I created my piece by using pencil and blending stumps. I find this piece meaningful because this is the first time I could capture emotion. I enjoyed creating this because I love drawing people. The hardest part of making this was the symmetry because that is something I struggle with. I am very proud of how real it looks! My artwork was inspired by a reel on Instagram I saw. This reel shows the user drawing a person with the two halves portraying different emotions and I thought that was cool.
